57

**Bags of Style**

A great selection of bags for him or her.

58

**Gift Guide**

Our comprehensive gift guide for enthusiasts and riders alike.

32

## PEOPLE

60

**Review**

Let's see what real Triumph people say, the people who make us what we are today.

# Dear Rider...

---

We've been dressing our riders since 1994. Fashions have come and gone, technologies have progressed and we have strived to continue to offer class-leading, individually designed products that allow you to further enjoy your motorcycle.

Every jacket, glove, t-shirt and key fob is designed and conceived in-house. We expect our products to perform to the highest standards, just like our bikes. That is why we have the confidence to put our riding gear through its paces, by using our test riders, ensuring that when you visit your dealer the product performs for you.

So, welcome to our Autumn/Winter 2009 collection. This magazine guides you through some of the great products offered by Triumph for this coming season. And we are presenting them in a totally new way. We have a lot to say about our products and we hope you enjoy it.

On a racetrack we put our sports gear through its paces as our test rider lapped the circuit on a Daytona 675. Engineered in conjunction with Alpinestars® our race suit is born on the track and ready for action, just like the Daytona 675.

Only the exclusive few make it as Triumph Legends. So we celebrate the King of Cool, Steve McQueen, with a new special edition jacket and t-shirt. This year Marlon Brando is inducted into the Triumph hall of fame with a t-shirt and leather jacket based on the iconic biker movie 'The Wild One'.

True vintage, photographed in the heart of London, it brings together two British style icons – Savile Row and Triumph – presenting our new Modern Classic collection. Every Triumph rider wanting an authentic vintage style looks at the Lawford Jacket so this season we have added it in black for men and also in a specific ladies fit.

The revitalised Docklands area of London is the location for the Urban Sport shoot. The rider is protected from the elements with our new Paragon Tex Jacket while his female companion models the AS5 Jacket, another quality product born from our partnership with Alpinestars®, both ready for an Urban Assault on their Street Triples.

Whatever the weather we want you to get out and enjoy your Triumph. So we have developed a range of products that will keep you moving, such as the H2Protec Jacket, Triumph's most innovative leather jacket yet, with numerous features for all year round riding. Our gear is designed for anything Mother Nature can throw at you and won't let you down, even if the weather sometimes does.

Finally, we end the collection presentation with a word from some friends and colleagues here at Triumph. They use and wear the product and you can hear directly what they think about the new collection.

# GO AND PROVE style NEVER GOES OUT OF FASHION

We hope you enjoy the brochure and feel inspired to ride to your local Triumph dealer and get yourself kitted out. Our dealers carry a wide selection of products and they are always there to help. Everyone at Triumph wants to see you riding with a smile on your face and a Triumph jacket on your back.

The full range of products are presented on our website [triumphmotorcycles.com](http://triumphmotorcycles.com) and they are available to purchase from your local Triumph dealer.

We want to know what you think. Any comments on our products would be warmly welcomed so please feel free to email us at [letusknow@triumphmotorcycles.com](mailto:letusknow@triumphmotorcycles.com)

Enjoy your riding.

Regards,

A handwritten signature in black ink, which appears to read 'Ian O'Reilly'.

Ian O'Reilly  
Clothing, Merchandise and Licensing Manager

# RACING LINE

WHEN YOUR BIKE IS CUTTING EDGE, YOU WANT YOUR GEAR TO REFLECT THIS, AND WITH A LINE-UP AS STRONG AS TRIUMPH'S URBAN SPORTS RANGE WE DIDN'T WANT YOU TO HAVE TO COMPROMISE WITH WHAT YOU WEAR.

SO WE LOOKED LONG AND HARD AT THE DAYTONA 675, STREET TRIPLE, STREET TRIPLE R AND SPEED TRIPLE. THE RESULT? CLOTHING THAT BLENDS SEAMLESSLY WITH YOUR MACHINE, CAPTURING THE VERY ESSENCE OF ITS ATTITUDE AND PERFORMANCE.

Our bikes don't compromise, so why should you? Our range isn't style over substance, it's developed for, and focused on, the sports rider who demands performance on the track, safety on the road and peace of mind at high speed. To help us achieve this we brought on board Alpinestars®, a brand whose name is synonymous with racing success. Together we refined the already class-leading products of Alpinestars® and created a focused, stylish and assured range for the track rider. Developed on the track, but modified for street use, the AS1 Suit offers the highest level of track-tested protection with 1.2-1.4mm full grain leather, CE certified knee, shoulder and elbow protectors and thermoplastic protection on the shoulders. But we realize that the Urban Sport rider also requires a level of comfort, so we fitted Kevlar stretch panels and leather flex zones to allow the suit to work with the rider both on and off the bike. For the Triumph owner who demands the very best when it comes to performance, style and comfort the AS1 Suit, just like the Daytona 675, stands clear of the competition. When combined with boots and gloves from the range it doesn't matter if you are a serious club racer or an occasional track day enthusiast, the Triumph Urban Sport range will give you the confidence to keep pushing to better your performance.

10 | He wears (left): AS1 Suit – 1.2-1.4mm leather, CE protectors, multiple stitched impact seams, 90 degree anatomical race fit, back hump, removable mesh lining, race tech back protector, close fitting style, AS1 Gloves, AS1 Boots  
He wears (right): AS2 Jacket, AS3 Jeans, AS2 Boots  
She wears: Kiss Tee, Belt #2, models own jeans and boots

**AS BACK PROTECTOR.**  
CE level 2 tested back protector that gives high levels of impact performance while maintaining high levels of comfort and security. Ergonomic 5 plate construction gives the rider maximum levels of movement while the plates also lock to prevent over-extension of the back. Air channeling is built through the centre spine area for breathability.

**AS2 JACKET.**  
This high specification sports jacket incorporates aggressive sports styling with a focused sports fit. Can be combined with the AS3 Jeans to complete a two piece suit. 1.2-1.4mm full grain leather with multiple stitched impact seams, removable CE certified protectors, aerodynamic back hump and a removable thermal vest lining are all key features of this high spec jacket.

# TOP GLOVE

Whatever you ride, check out the latest range of gloves to meet your seasonal needs.

## TOP FOR TRACK

### AS1 Gloves

Our top of the range sports glove has been engineered with the help of Alpinestars® to offer the highest level of protection for both the track and road use. Designed with hard plastic knuckle and finger sliders for impact and abrasion resistance, dual wrist straps for added security and a Kevlar lining with Keprotec reinforcement for strength, they sit rightly at the top of the pile. But strength is nothing without control, and pre-curved fingers and an anatomically designed palm offer grip and feel that's second to none.

## TOP FOR SPORTS RIDING IN ALL WEATHERS

### AS2 Gore-Tex® Gloves

Integrating X-Trafit Gore-Tex® technology, these gloves are completely waterproof but retain the subtlety and feel of leather, giving you confidence when riding hard. In addition to the protection offered by hard plastic knuckle and finger sliders and a double wrist closure, the AS2 Gore-Tex® Gloves are windproof and breathable, offering you complete protection whatever the weather.

## TOP FOR STREET SPORTS

### AS3 Carbon Gloves

Stylish as well as safe, the AS3 Carbon Glove is perfect for street riding and offers top performance combined with cool looks. The carbon fibre knuckle and finger sliders not only look great, they also offer high levels of protection while the full grain leather and suede palm give the rider all the feel you need on the road, as well as track-tested performance.

## TOP FOR STREET SPORTS

### Ladies AS4 Carbon Gloves

Great for street riding, the AS4 Carbon Gloves give top performance with a number of key technical features, including carbon fibre knuckle and finger sliders, a double Velcro wrist closure and full grain leather construction.

## TOP FOR TOURING

### Expedition II Gloves

Keeping your fingers warm and dry is a must for any tourer, so we have upgraded the Expedition II Glove with a high performance waterproof, windproof and breathable TriTex membrane. But we refuse to compromise on safety, and the highly abrasion resistant leather construction, hard knuckle panels and Keprotec panels are key components of these gloves while a built in visor wipe adds practicality.

## TOP FOR MESH VENTILATION

### Raptor Vented Gloves

Fully perforated mesh gloves that are reinforced with leather palm panels and ventilated hard knuckles. The lightweight construction and short cuff design make these gloves perfect for warm weather riding.

## TOP FOR ENTRY-LEVEL SPORT

### Couga Gloves

Looking for a reliable, well designed sports glove that won't break the bank? The Couga Gloves include all the key attributes you could need for modern day sports riding such as hard knuckle protectors and Keprotec abrasion resistant panels. We firmly believe value shouldn't dictate quality.

## TOP FOR NAKED BIKES

### Roadster Gloves

A great looking glove with the style and functions needed for naked bike road riding. The Hitena and leather construction is joined with Keprotec abrasion panels for safety, while ventilated hard knuckle protectors and a short cuff construction ensures comfort and an easy fit under a leather jacket. Comfort, safety and style.

#### TOP FOR TOURING (AND SPORT!)

##### Garrett Gloves

Multi-functional and reliable, the Garrett Gloves will keep your hands warm and dry through the winter while the carbon knuckle adds a degree of sports to the touring, matching perfectly with the Garrett Jacket and Jeans. A valuable member of our Rider Essentials range.

rideressentials

#### TOP FOR CRUISING Highway Gloves

The enjoyment of those long cruises is only enhanced with the Highway Gloves. A lightweight and simple design, make this a key glove for any Classic or Cruiser rider.

#### TOP FOR CLASSIC SPORT Ashford Gloves

These gloves combine perfectly with the Ashford Jacket, following on from its classic sports styling cues. The same brushed leather is used on the gloves as the jacket to give them that authentic vintage appearance. And they feel every bit as good as they look.

#### TOP FOR VINTAGE Portland Gloves

That classic vintage look is beautifully achieved with the Portland Gloves. Their short cuff design and contrasting retro palm panels give a stylish appearance while the rubber wrist closure and vented finger panels provide a refreshing breeze and hassle free use. A top glove for Bonneville and Modern Classic riders.

rideressentials

#### TOP FOR NO NONSENSE RIDING Acton Gloves

Part of the Rider Essentials range, these gloves offer value without compromise. A superb glove for all year round riding, the Actons feature a waterproof, windproof and breathable membrane and combine fantastically with the Acton Jacket and Pants. Another gem from the Rider Essentials range.

#### TOP FOR ROADSTERS Edmonton Gloves

An aggressive looking Cruiser glove, the Edmonton combines a nylon and leather construction with a hard knuckle and short cuff design to help it slip under the cuff of the Edmonton Jacket with minimal hassle. Perfect for the rider who wants to show some attitude.

**LEGENDS**  
Inspired by Marlon

**BRANDO**

**INSPIRED BY MARLON BRANDO IN THE ICONIC BIKER MOVIE 'THE WILD ONE', WE'VE DESIGNED A REPLICA JACKET IDENTICAL TO THE ONE WORN IN THE FILM.**

The 1953 movie depicted the motorcycle rebel culture and proved a seminal piece of movie making, inspiring generations. The Black Rebel Motorcycle Club (BRMC), led by the charismatic Johnny Strabler, the character played by Brando, were the original rebels without a cause and the image of Brando astride his Triumph Thunderbird 6T soon became an icon of non-conformity. A chord that strikes deeply within the hearts of Triumph and its riders.

This modern day replica includes all the key features of Brando's original, right down to the 'Johnny' embroidered chest signature and the BRMC distressed print on the back of the jacket. With its classic highway collar, shoulder epaulettes and pocket detailing this replica remains as true to the original as possible, right down to the way we've treated the leather to give it a vintage finish.

But not everything about the past has, or should be, retained. We've brought the protection levels bang up-to-date with double impact seam stitching, CE certified shoulder and elbow protectors and a removable thermal vest lining.

To celebrate the life of the original rebel, and under official license from the Brando estate, we've developed a whole collection inspired by 'The Wild One'. As well as the special edition jacket the collection includes a men's and women's t-shirt and a limited edition print that features Brando's iconic movie pose.

# rideressentials

GARRETT GLOVE  
100% waterproof - breathable - windproof, water repellent outer material and leather construction, carbon fibre knuckle, reinforced palm, thermal lining

FOR MOST, RIDING A MOTORCYCLE IS A PASSION. IT'S A FORM OF ESCAPISM, FUN, CAMARADERIE AND EXCITEMENT.

BALHAM JACKET  
1.2mm leather, CE protectors, multiple stitched impact seams, straight fitting style

GARRETT JACKET  
100% waterproof - breathable - windproof, 600D water repellent outer material, CE protectors, multiple stitched impact seams, removable thermal lining, 'Air-Flow-Tech' ventilation panels

WHAT YOU WEAR IS A REFLECTION OF YOUR PERSONALITY AND AS YOU WILL BE READING IN THIS MAGAZINE, WE HAVE A VAST ARRAY OF PRODUCTS THAT SHOULD MEET YOUR NEEDS.

We also realize that good quality rider wear is an investment, which is why we have balanced our product offering by giving you premium products and a range of quality entry level styles for the season.

Rider Essentials is the range that offers value without compromise. High quality gear for men and women that won't break the bank - but will still perform to the high standards you require.

ACTON JACKET  
100% waterproof - breathable - windproof, 600D water repellent outer material, CE protectors, multiple stitched impact seams, removable thermal lining

**ACTON GLOVE**  
100% waterproof - breathable - windproof, water repellent outer material construction, hard knuckle, reinforced palm, thermal lining

**TRITEX WATERPROOF BOOTS**  
100% waterproof - breathable - windproof, full leather upper, gear change, ankle, heel and toe guards, non-slip rubber sole

**LADIES TRITEX WATERPROOF BOOTS**  
100% waterproof - breathable - windproof, full leather upper, gear change, ankle, heel and toe guards, non-slip rubber sole

Take the new Garrett Jacket and Jeans. This sports touring, all-weather suit is completely waterproof and breathable, has ventilation panels for warmer weather and is constructed using 500 denier polycordura fabric, offering excellent levels of abrasion resistance.

In leather we have the Balham Jacket. This is the minimally styled, quintessential black leather biker jacket. Good quality leather, a strong construction, CE armour - in short, all the necessary features you require in a riding leather jacket.

For ladies, the Victoria Jacket and Jeans combine chic styling and great looks with function and quality in this leather jacket and jean combination. We think the jeans are the best fitting ladies styles we've ever seen.

The range of other mens and ladies garments, jackets and a new boot style helps to complete the Rider Essentials range for the new season. We are extremely proud of our Rider Essentials range, and we hope you will follow our enthusiasm.

**LADIES GARRETT JACKET**  
100% waterproof - windproof, 600D water repellent outer material, CE protectors, multiple stitched impact seams, removable thermal lining, 'Air-FlowTech' ventilation panels

**LADIES VICTORIA JACKET**  
imm leather, comfort stretch panels, CE protectors, multiple stitched impact seams, removable thermal lining

**LADIES ACTON JACKET**  
100% waterproof - breathable - windproof, 600D water repellent outer material, CE protectors, multiple stitched impact seams, removable thermal lining

**ACTON JEANS**  
100% waterproof - breathable - windproof, 600D water repellent outer material, CE protectors, multiple stitched impact seams

He wears: H2Protec Jacket, H2Protec Jeans, Highway #2 Boots    She wears: T'Bird Jacket, Langton Jeans, GBM Tee

CRUISING ON A BIKE IS ALL ABOUT FREEDOM,  
THE FREEDOM TO GO WHERE YOU WANT.

IT'S ABOUT GETTING A GROUP  
OF FRIENDS TOGETHER  
AND JUST RIDING FOR  
THE ENJOYMENT OF RIDING,  
THE SHEER PLEASURE OF  
BEING ON TWO WHEELS.

He wears: Edmonton Jacket She wears: GBM Tee, Belt #3 and models own jeans

**UIMPH**  
So we've developed a range of products that are specifically designed with Cruiser riders in mind, TAILORED TO THEIR INDIVIDUAL NEEDS AND UNIQUE REQUIREMENTS.

He wears: T'Bird Jacket – 1.2mm leather, CE protectors, multiple stitched impact seams, removable thermal lining, hidden ventilation panels, comfort fitting style, Highway Gloves, models own sunglasses

He wears: Edmonton Jacket – 1.2mm leather, CE protectors, multiple stitched impact seams, removable thermal lining, hidden ventilation panels, comfort fitting style, Freedom Tee

**We know you want your gear to reflect your mood, so we've given our Cruiser products a comfort fit. As you relax back into your bike's seat your Triumph jacket's cut, with its broad shoulders and generous body, mirrors your attitude. Nothing should stop your enjoyment of riding your Triumph Cruiser, least of all your gear, so we've added additional depth to our jacket's arm holes to take the strain off your limbs on those long cruises.**

**But we want your jacket to also reflect your personality, and the character of your Triumph, so we have developed a range of clothing styles to suit our bikes.**

**For the Rocket III Roadster or Speedmaster owners we are proud to introduce the all new Edmonton Jacket with its muscular styling and year round performance. Made of tough, yet supple, full grain leather the Edmonton offers all the performance of a sports jacket, but with a laid back and relaxed feel, just like the bikes that inspired it. It looks aggressive with its strong Triumph branding and large back logo.**

**However should you prefer to match a more classic highway image to your Thunderbird, then the T'Bird Jacket with its double collar design and subtle Triumph branding encapsulates the authentic Cruiser look. But don't be fooled, despite the timeless look, this is very much a modern jacket, packed full of the very latest features including large vents to aid cooling and a quilted vest liner to keep the cold out when required.**

**And female Cruiser riders get their very own T'Bird Jacket, again taking that classic Cruiser styling and double collar design, but cutting it to flatter the feminine form with a pinched waistline.**

## SECOND SKIN

Your complete guide to the range of men's leatherwear. All products in this range include easily removable CE certified protectors, double impact seams and waist connection zippers as standard. We also use a variety of leathers that fit perfectly to reflect your own personal style and riding needs. Visit [triumphmotorcycles.com](http://triumphmotorcycles.com) for more details or view these products at your local Triumph dealer.

 She wears (below): Victoria Jacket – 1.2mm leather, comfort stretch panels, CE protectors, multiple stitched impact seams, removable thermal lining, GBM Tee, Belt #2, Denim 08 Jeans

# TRUE VINTAGE

Nothing encapsulates the feeling of retro style like a Triumph Bonneville parked up in the streets of Savile Row, the home of British style. This is the look that defines Triumph, and we have over 100 years of history to delve into to bring you the most authentic in retro styling.

We have created the new Ashford Jacket (top right) in both male and female cut for riders who love classic retro sports styling. With its brushed leather the Ashford is soft to the touch and creates a vintage style with a hint of speed thanks to the use of striped arms and stitched Triumph logo on the back. It's a perfect accompaniment to a Bonneville.

Our vintage offering continues with the Rivton Jacket (top left), Retro Racer Tex (bottom left), Balfour (bottom right), as well as the all new Ladies Victoria (bottom right and left). They are all contemporary, authentic and truly individual in their own way, just like the Triumph you ride.

And away from the bike you maintain your vintage look with t-shirts from our Sixty8 collection, inspired by Triumph's rich heritage. Turn to page 44 to see our whole range of authentic vintage Triumph T-shirts.

He wears: Lawford Jacket Black - 1mm leather, CE protectors, multiple stitched impact seams, removable thermal lining, straight fitting style, TT Races Tee  
She wears: Spirit Tee, models own sunglasses

# LAWFORD

The Lawford collection has been created in an authentic and faithful retro look combined with modern technology.

The Lawford Jacket has a contemporary style of its own with its soft and supple oil washed leather and classic four pocket design. For men, you can either choose the black version that is constructed from 1mm oil washed leather or a vintage brown that is constructed using 1mm antique leather. For women, there is an individually designed version that uses the brown vintage leather and reflects that retro chic. Both come with antique style zips and snaps to complete the look, but also includes CE certified shoulder and elbow protectors and a removable thermal vest lining.

# R D

**TRIUMPH'S STEVE MCQUEEN LEGENDS SERIES is further extended for Autumn/Winter 09 with the introduction of the McQueen Special Edition Jacket as well as another edition to the hugely popular t-shirt collection.**

**Both of these products take direct influence from McQueen's participation in the International Six Day Trials, the most challenging motorcycle event in the world. McQueen entered the ISDT in 1964 as part of a US team behind the then communist Iron Curtain of East Germany. This 200 mile endurance event pitched McQueen, riding his Triumph 650, against some of the world's top riders through mountain passes, forests, ravines and trails.**

T R I U M P H ' S

Steve MC

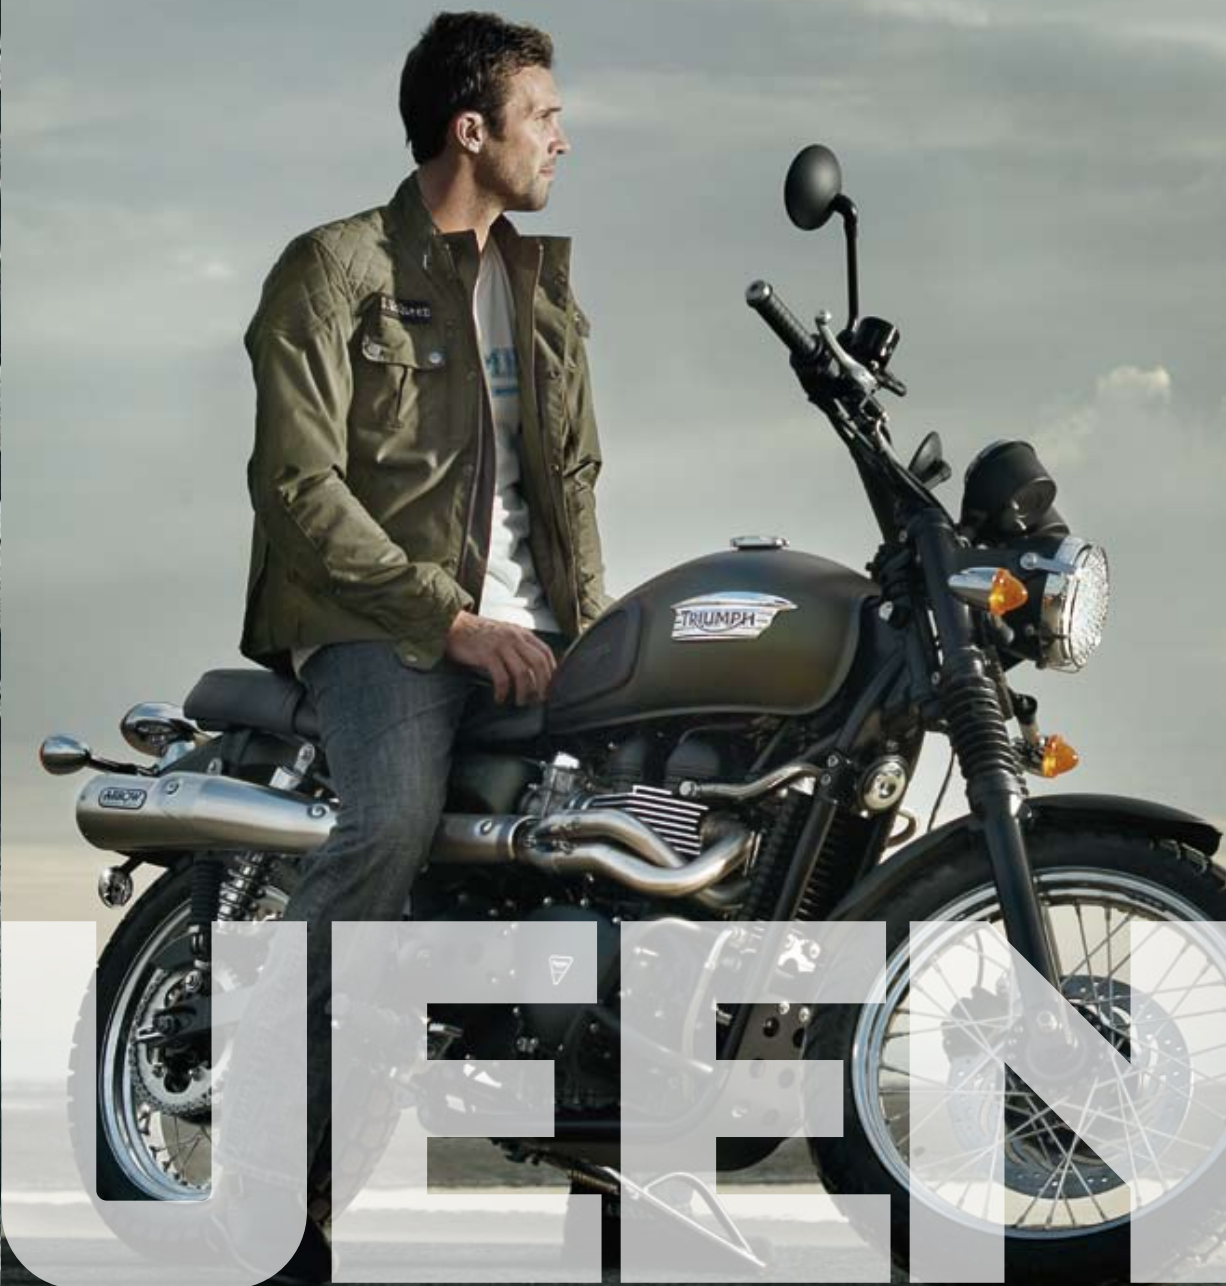

**McQueen White / McQueen Black / McQueen #3 / McQueen #2 / McQueen Special Edition Jacket**

The McQueen Jacket is a modern interpretation of the style of jacket he wore in 1964, and as McQueen liked to challenge himself on track, we challenged our designers to come up with a fresh and modern twist on a classic design.

From the outside the McQueen Jacket could easily pass as a 1964 original with its stylish design, high collar and quilted shoulder and elbow panels replicating the vintage look. But behind this retro façade lies water repellent and vented outer shell that gives the jacket the performance of a modern fabric, with the touch and feel of vintage material.

But it's the additional details that set this jacket aside. From the 'S McQueen' chest patch and the bike's registration plate embroidered on the left arm, right down to the commemorative panel sewn into the jacket's removable quilted lining we haven't left anything off.

# MCQUEEN

## FABRIC OF SOCIETY

A rider's guide to all things textile. All men's Urban Sport and Modern Classic styles contain CE certified protectors, manufactured using high grade materials and include removable thermal linings. Visit [triumphmotorcycles.com](http://triumphmotorcycles.com) for a further comprehensive look at these styles.

### RAIN SUIT 2

Best for rain protection when needed

Waterproof, easy access jacket and pants.

# URBAN ASSAULT

As night draws in, our rider is protected from anything that the elements can throw at him with our Paragon Tex Jacket. It doesn't matter if you are carving through the congested streets on a Street Triple or enjoying a Sunday ride on a Daytona 675, the Paragon combines cool sports styling with the practicality and function of a textile jacket. With its removable quilted lining and 600D water repellent outer material the Paragon Tex Jacket is both warm and water repellent, but also has hidden ventilation panels for when the weather heats up or the pace of urban life hits overdrive. Performance with style, just like our bikes.

And again our partnership with Alpinestars® has born fruit. Our female street rider models the AS5 Jacket and Jeans, developed in conjunction with Alpinestars®. A focused, female sports product range that combines style with great fit and uncompromised performance thanks to its 1.2-1.4mm full grain leather and CE certified armour. Sleek and aggressive, just like the Speed Triple.

TRIUMPH

TRIUMPH

TRIUMPH

He wears: Hawk #2  
Jacket - 1.2mm leather,  
CE protectors, multiple  
stitched impact  
seams, 'Air-Flow-Tech'  
ventilation, removable  
quilted lining, straight  
fitting style, Hoodie  
#4, Denim Kep Jeans,  
AS4 Boots

He wears: Parka – water  
repellent Bristex outer  
material, pockets for  
protectors, quilted fixed  
lining, 2-way front zipper,  
detachable hood and  
faux-fur trim, Fashion Shirt  
#8, Denim Vintage Jeans,  
Belt #2, Engineer Boots

# URBAN ASSAULT

It's the mod culture from the 1960s that has provided the inspiration for our Parka. With its detachable fur edged hood this classic symbol of the era comes with authentic zips and snaps and heavyweight padding to keep the chill out. Should the weather change our mod isn't worried, the water repellent Bristex outer material will keep him dry while side adjustment zippers ensure a snug fit.

And his female companion is as equally well protected in her Ladies Parka. Designed to compliment the male version it's made of the same water repellent Bristex outer material and uses the similar antique zips and snaps. If the weather turns, she too can zip the Parka up and let the heavyweight padding keep her warm while the detachable hood shelters her from any rain.

But not everyone follows the mod scene, our rider on the Street Triple R demands high levels of protection with maximum comfort, so he's turned to the Hawk #2 Jacket. Building on the success of the original version, the Hawk #2 is made with 1.2mm leather, CE certified shoulder and elbow protectors, and double stitched impact seams for safety. It also includes a removable inner thermal vest and leather flex zones for comfort.

It doesn't matter if you are on the street or the track, we still provide you with the very best in performance, and comfort, with our clothing.

She wears: Ladies Parka  
- water repellent Bristex  
outer material, pockets for  
protectors, quilted fixed  
lining, detachable hood  
and faux-fur trim

# PUT YOUR BEST FOOT FORWARD

Try something from the Triumph boot range. Here is the definitive guide to what you should dress your feet in for the riding season.

## BEST FOR TRACK

### AS1 Boots

High performance and comfort combine to make the AS1 Boot a true race winner. Ergonomically shaped, the boots feature various reinforcements including contoured shin plates with dual moulded ankle and calf protection panels. The boot upper is a micro-fibre that gives greater levels of flexibility and comfort while the lining is highly breathable. The rubber compound sole gives strength while also providing superior grip on your bike's peg.

## BEST FOR ON OR OFF BIKE

### Engineer Boots

These industrial looking boots feature a lace-up design that is great for everyday use and perfect for Classic or Cruiser customers alike. The boot's upper is full grain leather and has been given a matt finish with embossed logo detailing and a high quality non-slip rubber sole. From Rockers on T100's to Cruisers on Rocket III's, these boots are the perfect accompaniment.

## BEST FOR EVERYDAY SPORT RIDING

### AS2 Waterproof Boots

The great sports all rounder. At ease on the track as well as on the street, this boot will keep the elements out when the weather becomes unpredictable. Completely waterproof and breathable, the boot includes a highly breathable inner mesh lining as well as all the dual moulded ankle/calf protection panels you would expect from a premium product.

## BEST FOR TOURING

### AS3 Gore-Tex® Boots

For the ultimate tourer, the AS3 Gore-Tex® Boot is constructed from full grain oiled leather upper. The Gore-Tex® membrane ensures the boots are waterproof and breathable while plastic moulded shin, heel and toe guards offer additional impact and abrasion resistance. Boots that are designed to go the distance.

## BEST FOR STREET RIDING

### AS4 Boots

Low cut boots that are perfect for city riding, the AS4's are designed to be comfortable both on and off the bike while still providing high levels of protection. The micro-fibre upper is lightweight, flexible and comfortable while the dual moulded panels give additional peace of mind.

### BEST FOR CLASSICS

#### Ladies AS6 Boots

Stylish design with a right-on-trend lace up front and hidden side zipper. Developed with Alpinestars®, these cool looking boots are also functional, waterproof, windproof and breathable. Full grain leather, full length lace system for custom fit from ankle upwards, soft impact absorbing foam incorporated in ankle to give protection and comfort, reinforced heel and toe sections for protection and support, outer rubber sole specially formulated for grip, durability and feel.

### BEST FOR SPORTS RIDING

#### Ladies AS5 Boots

Specific ladies' fit sport boot. Aggressive styling and high levels of technology make this a great sport boot. Larger calf circumference to suit profile variations of female lower leg. High technology micro fibre for greater low weight, flexibility and comfort. Contoured shin plate protection with high abrasion protection, dual moulded ankle and calf protection. Highly breathable mesh lining and enlarged flex bellow areas to improve movement.

### BEST FOR VALUE

#### TriTex Waterproof Boots

If you want a no-nonsense, simply styled boot then TriTex Waterproof Boots will answer your needs. Completely waterproof, they are set at a competitive price. Despite this, we have not compromised on quality, with a full leather upper and ankle, heel and shin guards. Superb value for money and another excellent example of the Rider Essentials range.

### BEST FOR VALUE

#### Ladies TriTex Waterproof Boots

An elegantly styled ladies waterproof, windproof and breathable touring boot that includes ankle, heel and toe protectors, Velcro fastening and a slight stacked heel for a feminine style. Great for pillion or rider, offering excellent value for money as part of our Rider Essentials range.

### BEST FOR CRUISING

#### Highway #2 Boots

That classic Cruiser style with a newly developed shape and improved fit. These boots have a full leather construction with a matt finish, antiqued adjusters, embossed logos and a non-slip rubber sole.

### BEST FOR CRUISING

#### Ladies Highway #2 Boots

The classic Cruiser style available in a new ladies' fit. These boots have a full leather construction with a matt finish, antiqued adjusters, embossed logos and a non-slip rubber sole with a slight stacked heel.

# LADIES LEATHERWEAR

## FEMALE PERSPECTIVE

Here we host the very best ladies offering of rider wear. We are confident you will find something that you like that meets your riding needs. All of our ladies products are designed specifically for the female form. We start each style from scratch, not compromising on the fit, function and of course how the product looks. Check out the latest leather and textile products, exclusively designed by women for women.

### URBAN SPORTS

#### ASS JACKET

**Best for cutting edge sports**

1.2-1.4mm leather, hidden ventilation panels, removable thermal vest lining, side seam adjustments.

waterproof - windproof - breathable,  
hidden ventilation panels, removable thermal lining.

### ACTON JEANS

Best for value

600 denier water repellent outer fabric,  
waterproof - windproof - breathable.

## H2PROTEC JACKET

Triumph's most innovative Cruiser leather jacket, with numerous features for year round riding...

**Waterproof Leather** - The comfort and strength of a top quality leather jacket combined with the all-weather features of a textile waterproof jacket.

**High Grade Leather** - Natural grain 1.2-1.4mm cowhide, offering strength, abrasion resistance and comfort.

**Thermal Quilted Lining** - The removable quilted lining retains your natural body heat and ensures you keep warm when the weather drops.

**TFL 'Cool' Technology** - Perfect for warm weather riding, the leather is impregnated with a TFL coating that reflects sunlight and heat away from the jacket, which can reduce the inside temperature by 8-12 degrees.

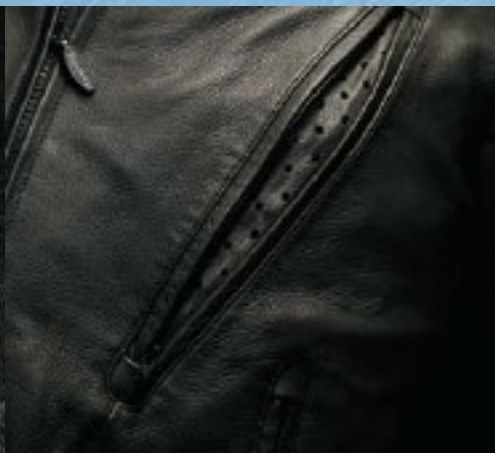

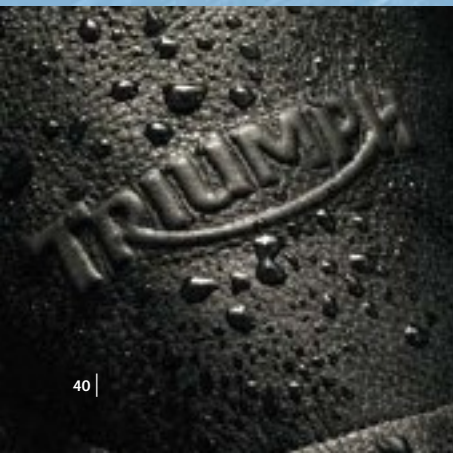

**Air Flow Technology** - Large, hidden air vents can open to allow a cooling air flow around your body while not compromising the waterproof properties of the garment.

**Multi-Pocket Design** - Storage is key and that's why we've designed a number of handy storage pockets into the jacket for cell phone, sunglasses and MP3 player.

**H2Protec Jeans** - Matching jeans are also available in varying leg lengths. These jeans are constructed from the same high grade leather and feature the TFL 'Cool' Technology and waterproof properties.

# BETTER BY TECHNOLOGY

WE NEVER WANT THE ELEMENTS TO STOP YOUR ENJOYMENT OF YOUR TRIUMPH. SO, FOR THOSE OF YOU TESTING YOUR RIDING SKILLS IN ALL WEATHER, WE KEEP ON DEVELOPING PRODUCTS THAT WILL KEEP YOU MOVING.

**Low Draw** – The Heated Vest draws fewer amps (just 3.5 amps) than more traditional heated products that use wires or carbon fibres.

**FabRoc**® – The specially designed FabRoc® polymer transfers an even distribution of heat throughout the jacket, avoiding hotspots that can be associated with more traditional heated products. This design means that the jacket is very damage resistant.

**Use** – The vest can be plugged directly to the motorcycle battery using the leads provided. Alternatively, an optional lead can be purchased to plug the vest to your auxiliary motorcycle sockets (auxiliary sockets are available for all Triumph models, either as standard or as an optional genuine accessory). An optional rechargeable battery pack and charger is available to purchase should you wish to use the vest off bike.

**Construction** – The outer shell is constructed from a water and dirt repellent Hiten fabric which also features contrast stitching details and 3M reflective logo's.

## HEATED VEST

# THE TRIUMPH HEATED VEST IS ONE OF THE MOST ADVANCED HEATED PRODUCTS ON THE MARKET.

Developed by Triumph, alongside British heated clothing specialist EXO2®, it uses a specially designed FabRoc® polymer fabric to heat the garment which is self regulating and transfers 99% of the electrical energy directly to heat, keeping you warm when all outside are shivering.

To check compatability with your Triumph motorcycle and usage instructions, please visit [triumphmotorcycles.com](http://triumphmotorcycles.com).

## **Winding through the hills and valleys, taking on whatever a harsh winter has to throw at you. Your gear will keep the elements at bay, enveloping you in a blanket of comfort.**

We've developed a wide range of winter riding garments to cover all of your riding needs. At the top of the pile is the SympaTex® Tiga for men, SympaTex® Seeta for women and the SympaTex® Riding Jeans, which come in both mens and womens styles. All offer top class protection against the wind, rain and cold, providing a barrier from the very best Mother Nature has to offer.

Ride safe in the knowledge that surrounding you is the very latest technology, a highly abrasion resistant outer fabric called Hitena. This twisted nylon yarn not only increases the tear and abrasion strength of the fabric, but when covered in our special coating it also improves its water resistance, keeping you both safe and dry.

At Triumph we understand safety and comfort have to work hand in hand, so underneath the protective outer shell is a SympaTex® performance membrane. This layer of waterproof, windproof and breathable material allows your body to diffuse heat while blocking any rain that might have seeped through the outer layer. Should the temperature dip as night falls, the inside of our jackets feature a removable quilted body mapped lining. Our clothing designers ride bikes, day in, day out, so we understand what works when you are riding, which is why we have unevenly distributed the lining's padding. A concentration of padding at the front of the jacket and less at the back ensures the right levels of insulation in the right places, while also reducing unnecessary bulk.

When the weather does turn and the temperature rises, the quilted lining is easily removed and gloved hands can unzip ventilation panels to allow cool air to circulate around the jacket and jeans.

As with all Triumph clothing we offer you a complete range of glove and boot options to accompany the riding garments, including the Expedition II Gloves and AS3 Gore-Tex® Boots. See pages 12/13 and 36/37 for the full ranges.

Triumph's range of touring clothing won't let you down, even if the weather has...

## URBAN SPORTS SYMPATEX® TIGA JACKET

Our top of the range sport-touring jacket, with full technical ability to allow comfortable riding in all weathers. Waterproof protection, thermal properties and 'Air-Flow-Tech' ventilation helps give the rider all the riding qualities needed in a high spec garment.

Seat height 12.6in-13.6in, bar height 16in.

**Coloring Book**

# Denim

## Factory

**How do we make a pair of jeans that we are happy to put our name to? First of all we only use the highest quality ring spun denim in our jeans, giving us the level of finish you demand from a Triumph product. The result is top class denim that not only looks great, it fits perfectly too. Only then, when we are completely satisfied, will we put the Union Flag on the pocket as a seal of quality.**

**And this season we have extended our jean collection with the introduction of the straight fit jean in a vintage wash. The straight leg gives you enough space through the seat and thigh to give a perfect fit both on and off a bike, while the vintage wash creates a graded wear pattern with high-low coloring for that authentic look.**

**Fancy something more relaxed? Our Denim 08 (mid-blue wash) and Denim Kep Jeans (indigo wash) are cut in a loose fit, generous through the seat and thigh with a slight boot cut for additional comfort. And for those wanting a bit more safety performance the Kep Jeans feature thigh, knee and seat Keptotec abrasion panels with knee armour pockets for additional protection.**

**DENIM 08 JEANS**  
Mid-blue wash, relaxed fit and available in regular inside leg.

**LADIES DENIM 08 JEANS**  
Mid-blue wash, available in regular inside leg.

**DENIM KEP JEANS**  
Indigo blue wash, relaxed fit and available in regular inside leg.

**VINTAGE DENIM JEANS**  
Vintage blue wash, straight fit and available in short, regular and long inside leg.

# REVIEW

WHAT OUR PEOPLE THINK OF OUR PRODUCTS

**"AS6 BOOT, I WEAR THEM RIDING TO THE OFFICE WITH MY JEANS, I CAN CHANGE INTO A SKIRT AND WEAR THEM ALL DAY, PERFECT".**

Elise Ware - Triumph France  
Street Triple Rider

**"The TBird leather has an amazing feel of quality, soft, supple and light yet you feel confident in this jacket. The liner gives you the warmth if you get caught in the cold. My favourite part of the jacket is the styling, you feel so COOL riding a cruiser your jacket slightly open the collars back looking the easy rider!."**  
GARETH BRIGHT - TRIUMPH UK

**"Old school style coat "PARKA" has the sense of fun in the design, looks good on or off the bike".**

Tak Kawamura - Triumph Japan  
Speed Triple 1050 Roulette Green

**"My favourite item is the new Brando Jacket. The leather is fantastic as well as its look. You will not pass unnoticed wearing it but, at the same time, the jacket is not flashy at all. It's simply a great item!"**  
Andrea Massari - Triumph Italy

"Unfortunately I have no bike at the moment, but I'm eager to buy one of our icons, the Speed Triple!"

**"My fave bit of gear at the moment is the Garrett Jacket, I like the fact it is functional and versatile, good in most conditions with plenty of useful pockets. But if you want to 'Pimp It Up' it has to be the AS1 Suit - sometimes you would like to change the weather, but never change your labels!"**

MARK ROBERTS - TRIUMPH DESIGN DAYTONA 675 RIDER

**"I have been testing the Engineer Boots as part of the development process for the Clothing Team. I think they look great and feel good quality, I ride thousands of miles testing the bikes, and fit, comfort and safety are really important for me, I scored them as Very Good".**  
Paul Young - Triumph Development Rider

**"THE LAWFORD JACKET HAS A SERIOUSLY COOL, RETRO STYLE".**  
Matt Weinert - Triumph America  
Bonneville Rider

**"My fave item is not just one it's the AS1 Suit, AS1 Boots and AS1 Gloves. I have been racing in them all season and although I haven't seen the podium too often I have looked like a winner everytime out!"**

**Neil Webster - Triumph France  
Speed Triple Rider**
